MANZONI

PRESSKIT 2026 — DJ & PRODUCER

manzoni.music@outlook.com · @valentin_manzoni

MOVEMENT & TRANSCENDENCE

Passionate about music from an early age, Valentin began playing piano at eight — jazz and improvisation shaping his musical foundation. Guitar followed, then percussion studies in Brazil, forging a deep, rhythm-driven approach to sound.

That multi-instrumental background informs his work as DJ and producer: sets and productions that are immersive, fluid and emotionally charged. On stage the intention is simple — a hypnotic, sensual journey where time dissolves, the body follows instinct, and the dancefloor becomes both meditative and raw.

He has performed at respected venues such as Kaufleuten (Zürich) and The Arcade (Washington D.C.), as well as intimate spaces across Mexico, Costa Rica, Colombia and Brazil — sharing the stage with Pablo Fierro (MoBlack), Blond:ish (Abracadabra) and Dario D'Attis (Defected) across the global electronic music scene.

Beyond performance and production, he sees music as a connective force — a way to bring people together through sound, shared experience, and events that celebrate cultural diversity, respect, authenticity and human connection.
